CAREER OBJECTIVES

Aspiring Software Engineer with strong foundations in Java, Object-Oriented Programming, Database Management, and Full Stack Development. Passionate about problem-solving, AI-Assisted Development, and building scalable technology solutions. Eager to contribute to innovative projects while continuously learning and growing in software engineering, cloud, data, and emerging AI technologies.

EDUCATION

Bachelor of Technology in Information Technology

CGPA: 9.252 (as of Semester V)

VELAMMAL ENGINEERING COLLEGE

2023 - 2027

HSC with 84.16%

VIDYA MANDIR MATRIC HR. SECONDARY SCHOOL

2021 - 2023

SSLC

VIDYA MANDIR MATRIC HR. SECONDARY SCHOOL

2020 - 2021

TECHNICAL SKILLS

Programming Languages: Java, Python, C++

Tools & Platforms: Git, GitHub, Google Colab, VS Code, IntelliJ IDEA

Web Technologies: HTML5, CSS3, JavaScript, Node.js, Express.js

Databases: MySQL, MongoDB

Big Data & Analytics: PySpark

Concepts: Object-Oriented Programming, CRUD Operations, Database Connectivity

SOFT SKILLS

Teamwork, Collaboration, Adaptability, Time Management, Problem Solving, Analytical Thinking

PROJECTS

Smart Poultry Farm Monitoring and Safety System

- Tools: IoT Sensors, Microcontroller, Embedded Systems
- Built an automated system to monitor environmental conditions in poultry farms for improved safety and productivity.
- Improved safety response time by 60% and increased productivity efficiency by 40%.

Real-Time IoT Sensor Data Stream Analysis

- Tools: PySpark, Google Colab
- Analyzed large-scale IoT sensor datasets by cleaning, transforming, and processing CSV data using PySpark.
- Improved data processing efficiency by 80% and enhanced insight accuracy by 70%.

Student Management System

- Tools: Java, JDBC, MySQL
- Designed and implemented a student record management system with full CRUD functionality.
- Reduced data retrieval time by 50% and minimized manual errors by 65%.

RESEARCH PUBLICATION

A Review of Machine Learning Models for Metabolic Syndrome Prediction with Emphasis on Hybrid Ensemble Techniques

- Co-authored and published a research paper on machine learning applications in healthcare prediction.
- Analyzed ML models including Random Forest, SVM, XGBoost, Deep Learning, and Hybrid Ensemble techniques.

INTERNSHIP EXPERIENCE

Full Stack Development Intern (Java)

Retech Solutions Pvt. Ltd. | May 2026

- Developed an Employee Management System using CRUD operations in Java.
- Worked on Full Stack Web Development concepts and real-world application workflows.
- Implemented database connectivity and object-oriented programming concepts.
- Gained hands-on experience in Java-based application development and problem solving.

UI/UX & Web Application Intern

National Small Industries Corporation (NSIC) | June 2025

- Designed UI layouts and wireframes for web applications.
- Applied UI/UX principles to improve usability and visual consistency.
- Gained exposure to real-world web application development workflows.

CERTIFICATIONS

- AI Tools & ChatGPT Workshop – Be10X | May 2026
Hands-on training in prompt engineering, AI-assisted coding, debugging, and productivity tools.
- Google AI Essentials – Coursera | Authorized by Google.
- Fundamentals of Object-Oriented Programming – NPTEL | Secured 85%.
- Cloud Computing – NPTEL (IIT Kharagpur) | Elite Certification | Secured 76%.
- MongoDB Basics for Students – MongoDB | June 2025.
- PySpark Value Added Course – Velammal Engineering College & Imarticus Learning | Sep 2025.
- Artificial Intelligence Virtual Internship – CodSoft (4 weeks), hands-on experience with AI tasks and projects.

PARTICIPATIONS

- Selected for Imagine TN, organized by the Department of IT & DS, Government of Tamil Nadu, gaining exposure to state-level innovation and entrepreneurship initiatives. (Jan 2025)
- Competed in a Hackathon organized by SIMATS Engineering College and secured a top-ranking position, narrowly missing second place due to single-prize allocation. (Feb 2025)
- Attended a hands-on workshop on 5G Technology at Chennai Institute of Technology, gaining exposure to next-generation wireless communication concepts. (Feb 2025)
- Successfully completed an industry-focused workshop on Power BI & SQL conducted by Imarticus Learning, gaining hands-on experience in data extraction using SQL and insight-driven visualization using Power BI.
- Completed a hands-on workshop on Design and 3D Modeling of Drones, organized by NSIC – Technical Service Center. (Aug 2024)
- Gained practical exposure to data visualization by attending a GUVI × HCL webinar on Excel Data to Power BI Dashboards – Data Analyst. (Nov 2025)
- Attended a one-day online workshop on Social Media Ads, conducted through the eLearn IQ platform. (Jul 2024)
- Recognized with a Certificate of Appreciation from DevTown for active participation and continued community engagement. (Sept 2025)
